3 FLOW LEVELS

Controlled cocktail
flow for different
meso-cocktails.

9 DEPTH SETTINGS

0–2.0 mm digital
needle length
adjustment.

6 SPEEDS

Customizable
treatment rhythm.

DUAL LIGHT

Blue and red light
therapy options.

Chip-Controlled Flow for Any Meso Cocktail

Precision cocktail flow for different meso-cocktails.

Three digital flow levels help adapt cocktail flow to the selected meso-cocktail and the planned cosmetic protocol. The transparent reservoir gives visible control during the treatment.

Optimal absorption.

One-Click Precision for Personalized Skincare

Digital control for needle depth, speed, flow and light.

The integrated display allows fast adjustment of needle depth, speed, cocktail flow and light directly on the pen, giving the practitioner a clear visual overview during the treatment.

Needle Depth Settings

Precise. Controlled. Versatile.

Digital Needle Depth

9 settings from 0 to 2.0 mm

Separate Function Buttons

Speed, flow, depth and light
controlled individually

Auto Reset Function

Consistent, simplified
workflow

Always apply the treatment within the locally permitted depth.

6 Speed Adjustment. 1000 mAh Battery.

Tailored treatment rhythm with powerful wireless performance.

Choose between six digital speed levels to tailor treatment rhythm and efficiency to the selected area and professional protocol. The rechargeable 1000 mAh battery supports smooth wireless operation in daily practice.
